

# CMF Range - Ceiling Mount Fan

## Key Features

**Type:** Ceiling mounted centrifugal fans.  
**Application:** Domestic kitchens, bathrooms & shower rooms.

## CMF

The ceiling mount CMF fans are suitable for domestic applications that require a longer length of ducting.

The CMF fans are centrifugal type fans and are designed to handle pressure in a ducted application.

All models are suitable for high humidity applications and have an unobtrusive flush design with fingerguard protection.

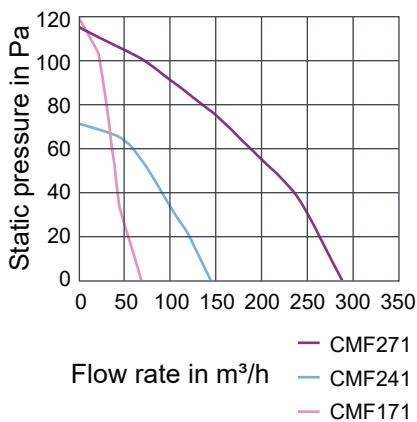

All models are IP55 rated and suitable for 220V-240V 50Hz mains operation.

Class B insulation for operation in ambient temperatures up to 40°C and are fitted with a thermal cut out.

## Dimensions (mm)

Model:	A	B	C	D	E
CMF171:	277	266	123	230	240
CMF241:	343	260	133	290	319
CMF271:	420	318	133	320	350
